HYDROLUME® is designed for harsh or wet* environments, and is completely UV, saltwater, and chlorine resistant. Add brilliant lighting virtually anywhere using a lighting solution durable enough to last in extreme environments, yet elegant enough for many other applications. Designed using patented technology, each section is custom cut to your exact specifications in our Nevada Operations Center for a timely delivery and install.

*WARNING: NOT FOR USE IN SUBMERSIBLE APPLICATIONS OR WITHIN 5' OF SWIMMING POOLS.

HYDROLUME® is sold in custom lengths up to 81.5 feet (STD) or 32.6 feet (PLUS) in 7.08 inch increments. 
Footnote 1 see page 2.

Visit the product page at [www.DiodeLED.com](http://www.DiodeLED.com) for installation guides, .IES files, voltage drop charts, and LM-79 reports.
SPECIFICATIONS

• Input: 24VDC Constant Voltage
• LED Chip Type: CREE 3228 SMD Chip (HL), CREE 3535 SMD Chip (HLP)
• LED Chip Beam Angle: 120°
• Material: UV/IR protected TPU
• Luminous Efficacy³ (lm/w): 66~103
• Mounting (sold separately): Stake Bracket, Mounting Bracket, and Mounting Channel
• Connections: Push on connector(s) with 6in.~24in. 20/2 AWG UL Cord.
• Ambient Temp⁴: -4~122°F (-20~50°C)
• Operating Temp⁵: -4~176°F (-20~80°C)
• Flammability⁶: Flame retardant

COMPLIANCE & REGULATORY APPROVALS

Safety
• UL Listed 2108 Low Voltage Lighting System / Low Voltage Luminaire. UL 1598 / CSA 250.0-08, UL 8750. UL 879 / CAN/CSA-C22.2 no. 207-M89. Certified for United States and Canada. File # E469769.

Performance
• LED chip data measured in accordance to IES LM-80-08.
• Photometric & Colorimetry data measured in accordance to IES LM-79-08, in Elemental LED’s Innovation Lab.

ADDITIONAL ACCESSORIES

Accessories listed below are fully compatible with our HYDROLUME product line. Further information on these products and more accessories can be found in our latest catalog or online at [www.DiodeLED.com](http://www.DiodeLED.com).

1. HYDROLUME Mounting Bracket
2. HYDROLUME Stake Bracket
3. HYDROLUME Mounting Channel (Length: 39.4in.)

COMPATIBLE DRIVERS

Additional information on compatible Drivers can be found on page 4-5 or on the Diode LED web site at: [www.DiodeLED.com](http://www.DiodeLED.com).

———

1. Lumen value measured in accordance to IES LM-80-08. LED chips have a luminous flux range with a tolerance of +/- 5%. Each test was performed with a 14.16 in. segment of HYDROLUME (2x 7.08 sections).
2. Each maximum run requires a dedicated power feed from the driver. Do not extend beyond the recommended maximum run length.
3. Actual efficacy value is dependent to specified LED driver (power supply). An estimated efficacy value can be calculated as follows: Lumen value divided by average power consumption per foot.
4. Do not install product in an environment outside the listed ambient temperature. Exceeding the maximum ambient temperature may damage LED chips, reduce the total lamp life, lumen output, and/or adversely impact color consistency.
5. Operating temperature is measured according to the minimum and maximum ambient temperature environment.
6. This product has been tested and passed glow-wire flammability tests (GWFI index) at 650°C/1200°F, providing an extra level of safety for common areas, hospitality, and areas of high risk fire.

SPECIFICATION SHEET

COMPATIBLE PRODUCTS
LED DRIVERS (Required)

The following Listed LED Drivers are recommended for compatibility and to meet NEC code when installed according to specifications. For additional LED Driver options see Diode LED's product page at: https://www.diodeled.com/products/led-power-supplies.html

SWITCHEX® DRIVER + DIMMER SWITCH
SWITCHEX combines an LED driver and LED dimmer switch into a single integrated unit. Fits into standard switch boxes.

ADDITIONAL INFORMATION

- HYDROLUME® LED STRIP LIGHT Installation Guide

SAFETY / WARNINGS / DISCLOSURES

1. Install in accordance with national and local electrical code regulations.
2. This product is intended to be installed and serviced by a qualified, licensed electrician.
3. Only install with a listed Class 2 DC Constant Voltage LED Driver.
4. Not for use in or on walls of pools, fountains, or other partially or fully submerged locations.
5. HYDROLUME® is field-cuttable. Be sure to cut on designated point to avoid damaging the strip light. Do not modify or disassemble product beyond instructions or this warranty will be void.
6. Actual color may vary from what is pictured above and on other print materials due to the limitations of photographic processes.
7. We reserve the right to modify and improve the design of our fixtures without prior notice. We cannot guarantee to match existing installed fixtures for subsequent orders or replacements in regards to product appearance, CCT, or lumen output.

WARRANTY

Limited Warranty
This product has a five (5) year limited warranty from the date of shipment. This warranty does not include the additional accessories referenced in this specification sheet. Complete warranty details for fixtures and additional accessories are available at www.diodeled.com/limited-warranty within the Policies section. For warranty related questions please contact product support.

Consumer’s Acknowledgment
Elemental LED, Inc. stands behind its products when they are used properly and according to our specifications. By purchasing our products, the purchaser agrees and acknowledges that lighting design, configuration and installation is a complex process, wherein seemingly minor factors or changes in layout and in-field adjustments can have a significant impact on an entire system. Choosing the correct components is essential. Elemental LED is able to work with the original purchaser to make an appropriate product selection to the extent of the limited information that the customer can provide, but it is virtually impossible for Elemental LED to design a system that foresees every unknown factor. For this reason, this Warranty does not cover problems caused by improper design, configuration or installation issues. Any statement from an Elemental LED employee or agent regarding a customer’s bill of goods and/or purchase order is NOT an acknowledgment that the products purchased are designed and configured correctly. The purchaser agrees and acknowledges that it is the customer’s responsibility to adhere strictly to all information contained in the Product Specification Sheets.

There is often more than one way to design, configure and layout an LED lighting application properly to achieve the same lighting effect. Elemental LED strongly recommends that licensed professionals be used in the design and installation of lighting systems that include Elemental LED products. The specifications include important information that a designer and installer should carefully review and strictly follow. Qualified designers and certified and/or licensed installers, with access to the final installation environment, customer goals, and Elemental LED product specifications can make the requisite decisions appropriate for a successful finished lighting application.
