

TAPEGUARD Tape Light Cover

Frosted	DI-TAPE-GRD-FR
Clear	DI-TAPE-GRD-CL

TAPEGUARD is the easiest way to provide a decorative protection for indoor tape light installations and create an attractive and finished look.

The low-profile cover comes with an adhesive edging that adheres to clean, dry surfaces. TAPEGUARD is made of lightweight, polycarbonate plastic that is easy to install and maintain. The covers can be placed end to end or cut to size for the perfect finished look to linear tape light installations.

Choose:

- Clear cover for maximum light output
- Frosted cover for subtle light diffusion
