LED LIGHT GUIDE PANELS

Display & General Illumination

Built to order in Reno, Nevada, Diode LED Light Guide Panels provide even, diffused light in a thin form factor due to a unique etched diffusion pattern. We customize the LED panel based on your specifications and dimensions. Light Guide Panels are equally useful for backlighting graphics, retail product displays, wall art, bars, stretch fabric ceilings, or translucent architectural elements such as walls.

- Cosmetics
- Product displays
- Wall Art
- Retail Displays
- Advertisement
- Signage
