Reasons to Choose  
Elemental LED as  
Your Lighting Partner

# elemental led

## WHY SHOULD YOU PARTNER WITH US?

Elemental LED inspires lighting professionals with our innovative technology. We manufacture an extensive array of unmatched quality products. We focus on the best-in-class customer experience. Why do we do this? We care about finding the right light for you. The right lighting transforms any space or application. Find your right light with Elemental LED as your partner.

# #1

### U.S. BASED COMPANY

We are a U.S. based engineering and technology company that designs and manufactures an extensive selection of superior LED configured lighting solutions. Our large local presence ensures you have a partner to quickly respond to your lighting needs.

**diode led®**  
a division of elemental LED

# #2

### WELL KNOWN DIODE LED BRAND

As America's largest provider of linear lighting solutions, Elemental LED's popular product line, Diode LED, is a widely recognized brand inspiring tremendous loyalty with brand and lighting designers, architects, specifiers, retailers, and store fixture manufacturers.

### BEST-IN-CLASS SERVICES

Our highly experienced product specialists partner with you to understand project requirements and specifications, assist with configuration, design, and select the right lighting solutions to meet your needs. You have a partner from beginning to end with Elemental LED.

### EXPERIENCE YOU CAN TRUST

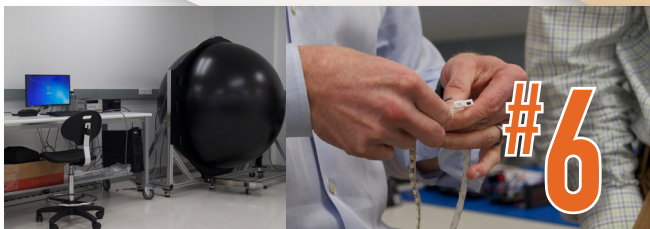

Our Business Solutions team focuses on specific verticals with large complex LED lighting requirements that often involve coordinated national roll-outs. We have expertise in engineering, design, retail environments and fixtures, hospitality, and a host of commercial based applications. Whether it's a one-of-a-kind or tailor-made solution, you can trust our team to get you the best lighting solution to maximize consumer impact and help drive revenue for your business.

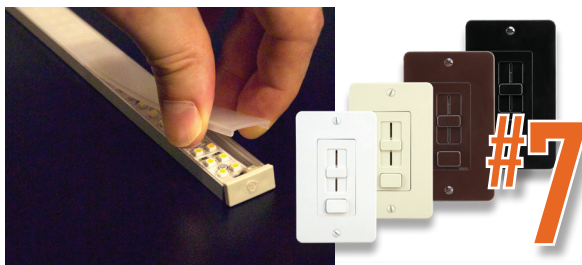

### **END-TO-END SOLUTIONS**

Our Custom Manufacturing & Assembly Program provides solutions tailored to specific projects and specifications that include custom finished UL Listed tape light, custom cut channel lengths, and fully loaded channel fixtures with tape light. We reduce installation time and labor costs while providing you with plug and play solutions made to order and ready to install.

### **LOCAL DESIGN AND TESTING LABORATORIES**

Our Innovation and Testing Labs allow us to design and engineer our products to be the highest performing in the industry in color consistency, high quality color rendering (CRI), heat management, quality construction, and more. You can count on us to deliver only the highest performing products.

### **PATENTED SOLUTIONS EXCLUSIVE TO DIODE LED**

Our U.S. and International patented and proprietary LED lighting solutions disrupt the market and make LED lighting easier to incorporate into any retail or commercial project. We design products based on your input to solve direct market challenges.

#8

## PRODUCTS MEET STRICT CERTIFICATION STANDARDS

Our solutions are UL Listed, Class 2, and NEC compliant for easy installation and streamlined inspection processes. You can be assured our products meet many regulatory requirements and standards.

#9

## EXTENSIVE INVENTORY READY TO SHIP

Our established 25,000 sq. ft. Operations Center houses millions of dollars in inventory and product customization equipment, ensuring that products are in stock and ready to ship to your exact specifications.

#10

## INDUSTRY LEADING WARRANTIES

Our products are designed for performance and reliability. We carry extensive, long term warranties so you can trust you have a product of the highest quality that will endure the test of time.
